

User's Manual

QUIK User Workstation,
a direct access front-office system

Version 7.16

The logo for quik, featuring the word "quik" in a white, lowercase, sans-serif font, centered within a green circle.

quik

Contents

Chapter 1. Before Starting

1.1	General information	2
1.2	System requirements	3
1.3	Program installation	3
1.4	Adding and selecting crypto provider in QUIK Workstation settings.....	4
1.5	Configuration of encryption carried out by means of qcrypto32 library.....	8
1.6	Configuration of encryption and digital signature carried out by means of MP library.....	9
1.7	Configuration of encryption and digital signature carried out by means of OpenSSL library	15
1.8	Running keys of the QUIK Workstation.....	18
1.9	Configure connection	19
1.10	Connecting to the QUIK Server.....	25
1.11	Monitoring the connection status.....	27
1.12	Versions of components and plugins	30
1.13	Program updates	31
1.14	Receiving files.....	31
	Appendix 1. Error messages	34
	Appendix 2. Example of certificate retrieval via web interface of Certification Authority.....	37

Chapter 2. Basic Operating Principles

2.1	Data structure	2
2.2	Program interface.....	4
2.3	Global filters	7
2.4	Quick search for an instrument.....	9
2.5	Configuring the flow of data	13
2.6	Tabs.....	19
2.7	Working with windows.....	21

2.8 Tables.....	24
2.9 System messages	43
2.10 Configuring the QUIK Workstation.....	45
2.11 Changing the interface language.....	52
2.12 Saving / restoring the configuration.....	52
2.13 Hotkey editor.....	54
2.14 APPENDIX.....	58

Chapter 3. Viewing Information

3.1 Create a window	4
3.2 Quotes table	7
3.3 Time and Sales table.....	17
3.4 Level II Quotes table	21
3.5 Account state table	31
3.6 Orders table	53
3.7 Stop orders table	63
3.8 Trades table	72
3.9 News.....	81
3.10 Trader messages window.....	85
3.11 Alerts window	91
3.12 Client portfolio table	106
3.13 Buy / Sell table	117
3.14 Summary table of limits	123
3.15 Limits for securities table	125
3.16 Cash limits table	129
3.17 Trading accounts table	133
3.18 Client account limits table.....	136
3.19 Client account positions table.....	139
3.20 Options board table.....	142
3.21 Option parameters table	147

3.22	Negdeal orders table.....	150
3.23	NDM quotes table.....	157
3.24	NDM Level II Quotes table.....	161
3.25	Table of trades for execution.....	163
3.26	Order reports for NDM trades table.....	171
3.27	Settlement codes table.....	175
3.28	Table of liabilities and claims for assets.....	177
3.29	Interest risk parameters table	179
3.30	Market risk parameters table.....	181
3.31	Individual risk parameters table.....	183
3.32	Currency: commitments and demands on assets table	184
3.33	Currency: interest risk parameters table	186
3.34	Currency: market risk parameters table.....	187
3.35	Currency: individual risk parameters table.....	189
3.36	Currency: interproduct spreads	191
3.37	Table of a Market-Maker's liabilities by stock and foreign exchange markets.....	192
3.38	Table of extended liabilities of Market Maker for stock and currency markets.....	195
3.39	Table of Market Maker's liabilities by derivatives market.....	199
3.40	Quotes history table.....	201
3.41	Quotes changes table.....	205
3.42	Cash positions table.....	206
3.43	Current positions for securities table	209
3.44	Current positions for accounts table.....	202
3.45	Current positions for securities on selected accounts.....	204
3.46	United Level II Quotes table	206
3.47	Transaction pocket table	210
3.48	Transactions table.....	214
3.49	System messages	218
3.50	Table of client requests for orders execution.....	220
3.51	Table of trading participants.....	222

3.52 Traders information table.....	225
3.53 NCC transfers table	228
3.54 Prohibition on operations table.....	230
3.55 Information on settlement codes	233
3.56 APPENDIX 1. Formulas for Calculating the Client Portfolio Parameters	234
3.57 APPENDIX 2	237

Chapter 4. Working With Graphs

4.1 The graphs window	4
4.2 Graph configuration	14
4.3 Technical analysis instruments.....	42
4.4 Methods of technical analysis	53
4.5 Bonds yield graph.....	90

Chapter 5. Client Operations

5.1 General method of executing transactions.....	5
5.2 Entering orders	6
5.3 Cancelling Orders	18
5.4 Changing orders.....	19
5.5 Contingent (Stop) orders	20
5.6 'If done' orders.....	28
5.7 Handling orders from the Level II Quotes table	32
5.8 Swapping orders for options and futures.....	41
5.9 Closing positions	42
5.10 Closing all positions.....	44
5.11 Reverse position	45
5.12 Calculating premiums for options.....	46
5.13 Parameters of trading operations.....	48
5.14 Accounts settings.....	57
5.15 Security parameters	58
5.16 Cancelling orders by condition.....	62

5.17 Configuring order entry fields autofilling.....	64
5.18 Configuring order volume limits.....	70
5.19 Client and market descriptions	71
5.20 Error messages	73

Chapter 6. Working With Other Programs

6.1 Data Export via DDE Server.....	2
6.2 Exporting data using ODBC	7
6.3 Exporting instruments via ODBC.....	10
6.4 Points to be aware of when exporting data.....	11
6.5 Export of Data into Technical Analysis Systems Using Built-in Tools	12
6.6 Configuring Equis MetaStock	16
6.7 Configuring Wealth-Lab Developer.....	17
6.8 Configuring Omega TradeStation / ProSuite 2000	20
6.9 Configuring AmiBroker	23
6.10 Export of data into technical analysis systems using external programs	26
6.11 Transaction import	28
6.12 Importing transactions via API	42
6.13 APPENDIX.....	61

Chapter 7. Broker Operations

7.1 Viewing trader positions	2
7.2 Working with client limits	2
7.3 Sub-administration.....	3
7.4 Margin trading	6
7.5 Handling limits.....	10
7.6 Dynamic limit correction from file	18
7.7 Operations with client limits on derivatives market.....	23
7.8 Operations in the Negotiated Deal Mode	28
7.9 REPO operations	30
7.10 Entering orders.....	34

7.11 Trading operations in NDM, REPO, REPO-M, REPO with CCP and RCB REPO with confirmation modes	35
7.12 OTC trades	54
7.13 Makler order.....	56
7.14 Makler stop orders	60
7.15 Participation in auctions for securities placement.....	64
7.16 Client transactions receipt mode with confirmation by the broker.....	66
7.17 APPENDIX. Error messages for working with limits	67

Chapter 8. QPILE Language

8.1 General.....	4
8.2 Working with QPILE tables	4
8.3 Program file structure	8
8.4 QPILE language constructs	12
8.5 General functions	21
8.6 Mathematical functions.....	22
8.7 Functions for working with collections (COLLECTION).....	25
8.8 Functions for working with associative arrays (MAP).....	26
8.9 Functions for accessing rows in arbitrary QUIK tables.....	28
8.10 Functions for accessing a list of available parameters.....	47
8.11 Functions for handling programmable tables	49
8.12 Functions for getting values from the quotes table	51
8.13 Functions for retrieving values from the Level II Quotes table	59
8.14 Functions for retrieving values from the Securities Limits table	60
8.15 Functions for retrieving values from the Cash Limits table	62
8.16 Functions for the calculation of margin positions.....	63
8.17 Functions for retrieving values from the Client Portfolio and Buy / Sell tables.....	65
8.18 File handling functions.....	72
8.19 String handling functions	74
8.20 Chart handling functions	75
8.21 Order handling functions	78

8.22 Label handling functions	80
8.23 Service Functions	83
8.24 QPILE program debugging	86
APPENDIX 1. QPILE command syntax.....	88
APPENDIX 2. Recommendations for writing programs in QPILE.....	90

Chapter 9. Working With Reports

9.1 Reports.....	1
9.2 Receiving and signing files from broker.....	14

Additional Consulting

If you have any question as regards installation and/or operation of QUIK, please consult the QUIK Administrator:

QUIK Technical Support Service; phone +7 (383) 219-1606, quiksupport@arqatech.com

/ brokers must put contact data of their administrators here /

Any information about modifications in current versions of QUIK is available from our official web-site: <http://arqatech.com>. Users can find answers to FAQ and ask their own questions in sections "FAQ" and "Forum".

Your opinions and comments on this User's Guide are welcome at quiksupport@arqatech.com.
